

Chicago Region Fungi 97 Fungi recorded for April.

Ascomycota	<input type="checkbox"/> polymorpha	Psathyrella	Scleroderma	Xylobolus	<input type="checkbox"/> squamosus (Cerioporus)
discomycetes	Basidiomycota	<input type="checkbox"/> sp.	<input type="checkbox"/> polyrhizum	<input type="checkbox"/> frustulatus	<input type="checkbox"/> varius (elegans)
Gyromitra	agarics	Tubaria	jelly fungi	polypores	Porodisculus
<input type="checkbox"/> brunnea	Caulorhiza	<input type="checkbox"/> sp.	Auricularia	Bjerkandera	<input type="checkbox"/> pendulus
Helvella	<input type="checkbox"/> hygrophoroides	asexual fungi	<input type="checkbox"/> angiospermarum	<input type="checkbox"/> adusta	Trametella
<input type="checkbox"/> costifera	Clitocybe	Haplotrichum	Dacrymyces	<input type="checkbox"/> quercina	<input type="checkbox"/> trogii
Morchella	<input type="checkbox"/> nuda	<input type="checkbox"/> sp.	<input type="checkbox"/> sp.	Daedalea	Trametes
<input type="checkbox"/> americana	Coprinellus	coral fungi	<input type="checkbox"/> capitatus	<input type="checkbox"/> confragosa	<input type="checkbox"/> cinnabarina
<input type="checkbox"/> punctipes	<input type="checkbox"/> micaceus	Artomyces	<input type="checkbox"/> stillatus	Daedaleopsis	<input type="checkbox"/> hirsuta
Peziza	Coprinopsis	<input type="checkbox"/> pyxidatus	Exidia	Fuscoporia	<input type="checkbox"/> ochracea
<input type="checkbox"/> sp.	<input type="checkbox"/> atramentaria	crust fungi	<input type="checkbox"/> nigricans ("glandulosa")	<input type="checkbox"/> gilva (Phellinus)	<input type="checkbox"/> versicolor
<input type="checkbox"/> praetervisa	Coprinus	Dendrothele	<input type="checkbox"/> recisa	Ganoderma	Trichaptum
<input type="checkbox"/> repanda	<input type="checkbox"/> comatus	<input type="checkbox"/> sp.	Sebacina	<input type="checkbox"/> sp.	<input type="checkbox"/> biforme
Urnula	Entoloma	Hydnophlebia	<input type="checkbox"/> sparassoidea (Tremella reticulata)	<input type="checkbox"/> applanatum	Truncospora
<input type="checkbox"/> craterium	<input type="checkbox"/> sp.	<input type="checkbox"/> chrysorhiza	parchment fungi	<input type="checkbox"/> curtisii	<input type="checkbox"/> ohiensis
Verpa	<input type="checkbox"/> vernum	Peniophora	Aleurodiscus	<input type="checkbox"/> lobatum	rusts and smuts
<input type="checkbox"/> bohemica	Flammulina	<input type="checkbox"/> albobadia	<input type="checkbox"/> oakesii	<input type="checkbox"/> sessile ("lucidum")	Gymnosporangium
<input type="checkbox"/> conica	<input type="checkbox"/> velutipes	gasteroid fungi	Byssomerulius	Hapalopilus	<input type="checkbox"/> juniperi-virginianae
loculo-ascomycetes	Galerina	Astraeus	<input type="checkbox"/> corium	<input type="checkbox"/> nidulans	Puccinia
Apiosporina	<input type="checkbox"/> marginata	<input type="checkbox"/> sp.	Hymenochaete	Irpex	<input type="checkbox"/> mariae-wilsoniae
<input type="checkbox"/> morbosa	Gymnopus	Bovista	<input type="checkbox"/> rubiginosa	<input type="checkbox"/> lacteus	tooth fungi
pyrenomycetes	<input type="checkbox"/> subsulphureus	<input type="checkbox"/> sp.	Hymenochaetopsis	Laetiporus	Steccherinum
Biscogniauxia	Mycena	<input type="checkbox"/> pila	<input type="checkbox"/> olivacea	<input type="checkbox"/> sulphureus	<input type="checkbox"/> ochraceum
<input type="checkbox"/> atropunctata	<input type="checkbox"/> sp.	Calvatia	Schizophyllum	Lentinus	
Camarops	<input type="checkbox"/> galericulata	<input type="checkbox"/> gigantea	<input type="checkbox"/> commune	<input type="checkbox"/> arcularius (Polyporus)	
<input type="checkbox"/> petersii	Panus	Crucibulum	Stereum	Neofavolus	
Diatrype	<input type="checkbox"/> rudis	<input type="checkbox"/> laeve	<input type="checkbox"/> complicatum	<input type="checkbox"/> alveolaris (Polyporus)	
<input type="checkbox"/> stigma group	Pleurotus	Cyathus	<input type="checkbox"/> gausapatum	Perenniporia	
Hypoxylon	<input type="checkbox"/> ostreatus	<input type="checkbox"/> sp.	<input type="checkbox"/> hirsutum	<input type="checkbox"/> fraxinophila	
<input type="checkbox"/> sp.	Pluteus	Lycoperdon	<input type="checkbox"/> ostrea	Polyporus	
Xylaria	<input type="checkbox"/> sp.	<input type="checkbox"/> perlatum		<input type="checkbox"/> badius (Picipes)	
<input type="checkbox"/> sp.	<input type="checkbox"/> cervinus group	<input type="checkbox"/> pyriforme			
	<input type="checkbox"/> petasatus				
	<input type="checkbox"/> romellii (lutescens)
