

Chicago Region Fungi **153 Fungi recorded for November.**

- Ascomycota**
discomycetes
- Aleuria**
 aurantia
- Ascocoryne**
 sp.
 sarcoides
- Bisporella**
 citrina
- Chlorociboria**
 sp.
- Helvella**
 sp.
- Rhytisma**
 acerinum
- pyrenomycetes**
- Biscogniauxia**
 atropunctata
- Camarops**
 petersii
- Daldinia**
 childiae
- Diatrype**
 stigma group
- Hypocrea**
 sp.
 sulphurea
- Hypomyces**
 chrysospermus
- Hypoxylon**
 sp.
- Xylaria**
 polymorpha
- Basidiomycota**
agarics
- Agaricus**
 argenteus group
- Amanita**
 muscaria var. guessowii

- vaginata group
- Armillaria**
 gallica
- Arrhenia**
 epichysium
- Clitocybe**
 sp.
 irina
 nuda
- Conocybe**
 sp.
- Coprinellus**
 sp.
 disseminatus
 radians
- Coprinopsis**
 sp.
 atramentaria
- Coprinus**
 comatus
- Cortinarius**
 sp.
 distans
- Crepidotus**
 sp.
- Cuphophyllus**
 pratensis (Hygrophorus)
 virgineus
- Flammulina**
 velutipes
- Galerina**
 marginata
- Gymnopilus**
 sp.
 braendlei
- Gymnopus**
 spongiosus
- Hebeloma**
 sp.

- sinapizans
- Hygrophorus**
 sp.
 occidentalis
 roseibrunneus
 sordidus
- Hymenopellis**
 sp.
- Hypholoma**
 lateritium (H. sublateritium)
- Hypsizygos**
 ulmarius
- Inocybe**
 sp.
 flocculosa
- Laccaria**
 sp.
 bicolor
 laccata
- Lentinellus**
 ursinus
- Lepiota**
 sp.
- Lyophyllum**
 decastes
- Marasmius**
 oreades
- Mycena**
 sp.
 filopes (iodiolens)
 galericulata
 inclinata
 subcaerulea
- Panaeolus**
 sp.
- Panellus**
 stipticus
- Pholiota**
 sp.

- aurivella
 polychroa
- Pleurotus**
 sp.
 ostreatus
- Pluteus**
 sp.
 cervinus group
- Psathyrella**
 sp.
- Rhizomarasmius**
 pyrrocephalus
- Rhodocollybia**
 maculata var. scorzonerea
- Russula**
 sp.
 silvicola
- Tricholoma**
 sp.
- Tubaria**
 sp.
- asexual fungi**
- Haplotrichum**
 sp.
- chanterelles and ground fans**
- Thelephora**
 anthocephala
- crust fungi**
- Dendrothele**
 sp.
- Peniophora**
 sp.
 albobadia
- Phlebia**
 sp.
 radiata
- Vararia**
 investiens

- Xylodon**
 paradoxus group (Schizopora)
- gasteroid fungi**
- Astraeus**
 sp.
- Crucibulum**
 laeve
 striatus
- Cyathus**
 striatus
- Lycoperdon**
 sp.
 perlatum
 pyriforme
- jelly fungi**
- Auricularia**
 angiospermarum
- Dacrymyces**
 sp.
- Dacryopinax**
 spathularia
- Ductifera**
 pululahuana
- Exidia**
 nigricans ("glandulosa")
 nucleata
 recisa
- Tremella**
 mesenterica
- parchment fungi**
- Aleurodiscus**
 oakesii
- Byssomerulius**
 corium
- Hymenochaete**
 rubiginosa
 tabacina
- Hymenochaetopsis**
 olivacea

- Merulius**
 tremellosus
- Punctularia**
 strigosozonata
- Schizophyllum**
 commune
- Stereum**
 sp.
 complicatum
 gausapatum
 hirsutum
 ostrea
 subtomentosum
- Xylobolus**
 frustulatus
- polypores**
- Antrodia**
 sp.
- Bjerkandera**
 sp.
- Cerrena**
 unicolor
- Daedalea**
 quercina
- Daedaleopsis**
 confragosa
- Fuscoporia**
 gilva (Phellinus)
- Ganoderma**
 sp.
 applanatum
 sessile ("lucidum")
- Gloeoporus**
 dichrous
- Grifola**
 frondosa
- Irpex**
 lacteus
- Ischnoderma**
 resinotum

- Junghuhnia**
 nitida
- Laetiporus**
 sulphureus
- Perenniporia**
 robinophila
- Phaeolus**
 schweinitzii
- Polyporus**
 squamosus (Cerioporus)
 varius (elegans)
- Postia**
 livens (P. caesia)
- Pseudoinonotus**
 dryadeus
- Trametella**
 trogii
- Trametes**
 sp.
 cinnabarina
 conchifer
 gibbosa
 hirsuta
 versicolor
- Trichaptum**
 abietinum
 biforme
- Truncospora**
 ohiensis
- Tyromyces**
 chioneus
- rusts and smuts**
- Phleogena**
 faginea
- tooth fungi**
- Hericium**
 erinaceus
- Steccherinum**
 ochraceum
